

Coaching has proven to be worth as much as thousands of dollars per hour in the business world because of its unique ability to bring tremendous success and change to the bottom line of company finances and workforce growth and development.

It is our vision to see Christian men and women around the world grow and mature in their walk with Christ and fruitfulness of life & ministry, and we believe that the coaching movement is becoming a major catalyst for that growth.

### *What is Coaching?*

- **Coaching is a Transformational Conversation.** Coaches are not there to give advice. Instead, powerful, incisive coaching questions stimulate you to examine the things in life that matter most from new angles. A coaching conversation can transform the way you look at life.
- **Coaching is a Transparent Relationship.** A coach is a friend and confidant, your greatest supporter, someone who knows you well enough to recognize your greatness and then challenge you to rise to it.
- **Coaching is a Support System for Change.** With support, encouragement and accountability from someone who believes in us, we can do far more than we'd ever accomplish alone. A coach helps you stay on track, overcome obstacles and convert your want-to into concrete steps that get in your date book and get done.
- **Coaching is Continuous Leadership Development.** Coaches don't give solutions: they help you solve your own problems. Coaching is helping you learn instead of telling you what to do. By leveraging every situation to build your capacity as a leader and a person, coaching prepares you to conquer much bigger challenges in the future.

in You!**

## Life Coaching...

Christian Leaders and fellow believers are hungry for coaches in their lives. People want a coach to cheer them on, challenge them to go deeper and reach higher, and help them stay focused on fulfilling their life purpose.

Do you have the heart of a Christian coach? Many ministry leaders who've been through coach training say they've been coaching all their lives, they just never realized it. Coaches love to help others discover who they are and

live out that destiny, and are energized by seeing people transformed at a deep level. Raising up leaders, building transparent relationships and seeing the potential in people are all a big part of Christian coaching.

Life and Leadership Coaching is rapidly becoming one of the most sought after ways of developing church leadership in the United States and beyond.
